

CURRICULUM VITAE

James G. Sanders

Professor
Skidaway Institute of Oceanography
University of Georgia
10 Ocean Science Circle
Savannah, GA 31411

Office: 912-598-3340

Email: jim.sanders@skio.uga.edu

Webpage:

<http://www.skio.uga.edu/people/sanders/>

EDUCATION

- 1973 B.S. Duke University, Zoology
- 1975 M.S. University of North Carolina, Marine Sciences. Thesis: Variations and interactions of manganese and phytoplankton in Calico Creek, North Carolina, under the direction of W.J. Woods
- 1978 Ph.D. University of North Carolina, Marine Sciences. Dissertation: Interactions between arsenic species and marine algae, under the direction of H.L. Windom.

PROFESSIONAL EXPERIENCE

- 2016-Present Professor, Skidaway Institute of Oceanography, Department of Marine Sciences
University of Georgia
- 2013-2016 Executive Director and Professor, Skidaway Institute of Oceanography,
University of Georgia
- 2001-2013 Director and Professor, Skidaway Institute of Oceanography
- 2002-2013 Professor, School of Biology, Georgia Institute of Technology, Atlanta, GA
- 2002-2013 Adjunct Professor, Marine Sciences, University of Georgia, Athens, GA
- 2003-Present Adjunct Professor, Savannah State University, Savannah, GA
- 1999-2001 Department Chair and Professor, Ocean, Earth and Atmospheric Sciences, Old Dominion
University, Norfolk, VA
- 1981-1999 Center Director, The Academy of Natural Sciences, Estuarine Research Center, St. Leonard,
MD, 1983-1999. Curator, The Academy of Natural Sciences, Estuarine Research Center,
1990-1999. Associate Curator, 1985-1990. Assistant Curator, 1981-1985
- 1981-1989 Adjunct Associate Professor, University of Maryland, Center for Environmental and Estuarine
Studies, Chesapeake Biological Laboratory, Solomons, Maryland, 1985-1989. Adjunct
Assistant Professor, 1981-1985
- 1980-1981 Visiting Assistant Professor, University of Maryland, Chesapeake Biological Laboratory

1978-1980 Postdoctoral Investigator, Woods Hole Oceanographic Institution, Woods Hole, MA

SELECTED AWARDS AND APPOINTMENTS

Certificate of Appreciation for contributions toward the development of state policy for restoring water quality in the Patuxent River; awarded by Maryland Governor H. Hughes, 1981.

Member, Environmental Commission of Calvert County, Maryland, 1981-1988; Chairman, 1983-1985.

Member, University of Maryland Sea Grant College Scientific Advisory Committee, 1983-1990.

Member, International Evaluation Group for the Swedish Environment Protection Board, 1984-1988.

Member, Science Advisory Board, Maryland Department of Natural Resources Power Plant Research Program, 1987-1999.

Treasurer, Estuarine Research Federation, 1994-1997; Associate Editor, ESTUARIES, 1995-1999.

Trustee, Chesapeake Research Consortium. Institutional Trustee, 1993-1995, 1999-2001, Secretary, 1995-1999, Institutional Principal, 1995-1999.

Member, Scientific and Technical Advisory Committee, EPA Chesapeake Bay Program, 1996-2001.

Member, Board of Directors, American Chestnut Land Trust, 1997-1999.

Member, VA Graduate Marine Science Consortium, Academic Advisory Panel, 1999-2001.

Member, Editorial Board, ENVIRONMENTAL TOXICOLOGY AND CHEMISTRY, 2001-2003

Member, Board of Governors, Consortium for Oceanographic Research and Education, 1999 – 2007; Executive Committee, 2003-2007.

Member, Board of Trustees, Consortium for Ocean Leadership, 2008 – 2014, 2015-2016; Executive Committee, 2009-2011, 2012-2014; Treasurer, 2012-2014; Member, Ocean Futures Committee, 2013-2016

Member, EPA Science Advisory Board, 2007-2014

Ecological Processes and Effects Committee, 2003-2009

Hypoxia Advisory Panel, 2006-2007

Chair, Advisory on EPA's Report on the Environment, 2009-2010; 2012-2014

Chair, Great Lakes Restoration Initiative Action Plan Panel, 2011-2012

President, National Association of Marine Laboratories, 2008-2009

Member, South Carolina Sea Grant Program Advisory Board, 2005-Present

Member, Board of Directors, South East Coastal Ocean Observing Regional Association, 2007-2009

Member, Georgia Sea Grant Advisory Board, 2015-2016

AFFILIATIONS: American Geophysical Union
Coastal and Estuarine Research Federation
The Oceanography Society

PRESENTATIONS (Recent)

June 1994, IAGLR-ERF '94, Windsor, Ontario. Chairman for the session on Processes that influence contaminant cycling and impact.

First author on "Trace element uptake and transport in estuarine phytoplankton blooms."

Second author on "The influence of water column oxygen concentrations and benthic infauna on the flux of trace elements from estuarine sediments," presented by G. F. Riedel.

September 1994, Second international conference on transport, fate and effects of silver in the environment, Madison, WI, "Comparison of silver, cadmium, copper and arsenic uptake by phytoplankton."

May 1995, Maryland Department of Natural Resources, CBRM Seminar Series, "Trophic response to trace element contamination."

November 1995, ERF Biennial Meeting, Corpus Christi, TX, "The importance of understanding ecological complexity to predicting effects of multiple stressors on coastal systems."

November 1995, SETAC Annual Meeting and 6th World Congress, Vancouver, B.C., Second author on "High concentrations of trace metals in oysters from the Patuxent River, MD," presented by G.F. Riedel.

September 1996, ECSA 26/ERF 96, Middelburg, The Netherlands, "Factors that influence partitioning of trace elements to estuarine phytoplankton and subsequent transfer to higher trophic levels."

Second author on poster "The importance of understanding ecological complexity to predicting effects of multiple stressors on coastal systems."

November 1996, SETAC Annual Meeting, Washington D.C., "Trace element interactions and transport in estuarine dinoflagellate blooms."

February 1997, ASLO Aquatic Sciences Meeting, Santa Fe, NM, "Effects of multiple stressors on estuarine phytoplankton and resulting influences on higher trophic levels."

Session Co-chair, "Effects of multiple stressors on marine and freshwater ecosystems."

October 1997, ERF Biennial Meeting, Providence, RI, "Trace element partitioning in estuaries: prediction of phytoplankton uptake and transfer to higher trophic levels."

Session chair, "Bioassays in estuarine research."

November 1998, SETAC Annual Meeting, Charlotte, NC, “The effects of multiple stressors on estuarine ecosystems: seasonal variability in response of phytoplankton communities.”

February 1999, ASLO Aquatic Sciences Meeting, Santa Fe, NM, “The effects of multiple stressors on estuarine ecosystems: seasonal variability in response of phytoplankton communities to trace elements.”

September 1999, ERF Biennial Meeting, New Orleans, LA, “Seasonal variability in trace element uptake and impact to estuarine phytoplankton communities.”

Session Chair, “Indicators of Stress and Change.”

November 1999, SETAC Annual Meeting, Philadelphia, PA, “Seasonal variability in response of estuarine phytoplankton communities to As and Cu stress.”

November 2001, SETAC Annual Meeting, Baltimore, MD, “Uptake, transformation, and ecological consequences of arsenic interactions with phytoplankton.”

February 2004, ASLO/TOS Ocean Research Conference, Honolulu, HI, fourth author on “Arsenic and phosphorus in the western Atlantic: New data for an old problem.”

February 2007, ASLO Aquatic Sciences Meeting, Santa Fe, NM, third author on “Arsenic toxicity and phytoplankton dynamics in the Sargasso Sea.”

November 2007, ERF Biennial Meeting, Providence, RI, Session organizer and presenter— “The EPA’s Gulf of Mexico Hypoxia Assessment.”

February 2008, ASLO/AGU/TOS Ocean Sciences Meeting, Orlando, FL, third author on “Species specific responses to arsenic toxicity and phosphate limitation.”

March 2009, University of Georgia, “Linking arsenic biogeochemistry, phosphorus limitation and phytoplankton dynamics in coastal and oceanic surface waters.”

March 2010, New College of FL, Sarasota FL, “Stressors in estuaries: multiple sources, multiple trophic levels and multiple stakeholders.”

May 2010, GA Soil and Water Conservation Society, Jekyll Island, GA, “The EPA’s Gulf of Mexico Hypoxia Assessment—and what about Georgia?”

January 2011, Savannah Council on World Affairs, Savannah, GA, “The world’s ocean in the 21st century.”

March 2012, Florida Gulf Coast University, Ft. Myers, FL, “Stressors in estuaries.”

PROFESSIONAL SERVICE

PROPOSAL REVIEWS

National Science Foundation (Biological Oceanography, Chemical Oceanography, Biotic Systems and Resources, Environmental Biogeochemistry, Geology and Paleontology, U.S.- Japan Cooperative Program, Science and Technology Centers, Field Stations and Marine Labs), NOAA, Sea Grant Program (DE/NJ, MA, NY, MD, NC), NOAA-NURP, NOAA- COP, NOAA-ECOHAB, Environmental Protection Agency, Hudson River Foundation, DE Office of Water Programs, MD Department of Natural Resources, San Francisco Bay Interagency Ecological Study Program, National Environmental Research Council (United Kingdom), NSERC (Canada), GA Water Resources Institute

PANEL REVIEWS

National Science Foundation, Ocean Sciences, Biological Oceanography Panel, 1987
NSF, Environmental Geochemistry & Biogeochemistry, 1996
NSF, Field Stations and Marine Labs, 2000, 2004, 2005, 2015
MD Sea Grant Program, Scientific Advisory Committee, 1983-1990
VA Graduate Marine Science Consortium, Acad. Advisory Panel, 1999-2001
Environmental Protection Agency, Office of Research and Development
 -Distinguished Visiting Scientists Review Panel, 1986
 -Environmental Biology Review Panel, 1986-1995
 -National Centers Program, 1992
MD Department of Natural Resources Science Advisory Board, 1987-1995
Electric Power Research Institute, Environmental Programs, Review Panel for trace element projects, 1986-1995
Swedish Environment Protection Board, Review Panel for the ESTHER Project, 1984-1988
Hudson River Foundation, 1999
NOAA, Coastal Ocean Program, Multiple Stressors Panel, 2002
Department of Defense, SERDP, 2006
SC Sea Grant, 2011, 2013
NOAA, Knauss Fellowship Program, 2015

MANUSCRIPT REVIEWS

Limnology & Oceanography, Environmental Science and Technology, Estuarine, Coastal and Shelf Science, Marine Environmental Research, Environmental Toxicology and Chemistry, Estuaries, Canadian Journal of Fisheries and Aquatic Sciences, Canadian Journal of Botany, Journal of Plankton Research, Journal of Great Lakes Research, Science of the Total Environment, Marine Biology, Water, Air & Soil Pollution, Journal of Phycology, Journal of Marine Research, Archives of Environmental Contamination and Toxicology, Aquatic Geochemistry.

CONSULTATIONS (Recent)

Kellogg Brown & Root Services, general consultation re science research activities, 2009
University of Connecticut, possible marine-related, state/university partnerships in the Groton region, 2012

SERVICE TO THE UNIVERSITY OF GEORGIA

Member, Provost's Advisory Council, 2013 – 2016
Member, Vice President for Finance and Administration Search Committee, 2013 – 2014
Chair, Nanoscale Science and Engineering Center (NanoSEC) Program Review Committee, 2013 -2014

TEACHING (Recent)

While at Old Dominion University:

OCEN 640: Advanced Biological Oceanography (graduate, PhD-level)

OCEN 695: Topics: Coastal Ecology (graduate, PhD-level)

While at Skidaway Institute of Oceanography:

GEO 8020 (UGA)/CEE/EAS 6761 (GIT): Contaminated Sediments (graduate, PhD-level; team-taught by distance learning)

MCSI 5202 (SSU): Coastal Oceanography (graduate, MS-level; team-taught)

STUDENT SUPERVISION (Recent)

Postdoctoral advisor for Silke Rick, ANS, 1998-2001

MS advisor for Esther Cornfeld, ODU (graduated 2002)

PhD Committee for the following students:

Ki-Hoon Song, PhD candidate, SUNY-Stony Brook, Marine Sciences (graduated Dec 2000)
Shannon Messeck, ODU (graduated Dec 2002)

MS Committee for William Bounds, ODU (graduated Dec 2001)

GRANTS AND CONTRACT AWARDS

Over \$23,000,000 in funding for research since 1981. Essentially continuous funding for research programs from NOAA, EPA, and NSF. Funding has been diverse, with funds from federal (~\$18,200,000), state (\$500,000) and private (\$4,400,000) sources. Complete list available upon request. Does not include fund-raising activities.

RECENT (SINCE 1990) AWARDS

- 1988-1999 Electric Power Research Institute. Selenium in aquatic ecosystems. \$2,200,000 for 10 years. Project Director.
- 1990-1993 NOAA, EPA. The role of benthic infauna and fluctuating oxygen concentrations in the flux of toxic trace elements from Chesapeake Bay sediments. \$175,000 for 2 years. Co-PI.
- 1992 EPA, Delaware Estuary Program. Factors limiting primary production in the urban Delaware River. \$75,000 for 1 year. PI.
- 1991-1992 EPA, Delaware Estuary Program. Trace element speciation and behavior in the tidal Delaware River. \$90,000 for 1 year. Co-PI.
- 1992-1995 NOAA, EPA. The importance of algal blooms in the transport of carbon and toxic trace elements in Chesapeake Bay. \$210,000 for 2 years. PI.
- 1993-1995 NOAA, EPA. Contaminant flux from sediments: impact on Chesapeake Bay food webs. \$293,000 for 2 years. Co-PI.
- 1993-1996 State of Maryland, Chesapeake Bay Research and Monitoring Division. Effects of power-plant generated contaminants on trophic relationships in Chesapeake Bay. \$188,000 for 2 years. PI.
- 1993-1996 NOAA. Toxics research program scientific coordination. \$30,000 for 3 years. PI.
- 1994-1998 NOAA. Impact of sediment-associated contaminants on benthic species in Chesapeake Bay: Implications for carbon and contaminant transfer in food webs. \$303,000 for 3 years. PI.
- 1995-2002 NOAA, Coastal Ocean Program. The importance of ecological complexity to predicting effects of multiple stressors on coastal systems. \$6,050,000 for 6 years. Co-Lead PI.
- 2003-2006 NSF. Student housing for instructional programs and field research. \$187,500 for three years. PI.
- 2004-2007 NOAA, Georgia Sea Grant. Taking Georgia's students to sea. \$225,000 for three years. PI.
- 2005-2008 NSF, Collaborative Research: Arsenic interactions with Sargasso Sea phytoplankton communities. \$179,000 for two years, SkIO share. PI.

2007-2008 NSF. Shipboard Scientific Support Equipment. 120,000 for 2 years. Assumed from prior PI.

2007-2012 NSF. UNOLS ship operations. \$2,980,829 for 5 years.

2007-2008 NSF. Oceanographic technical services. Approximately \$160,000 for 3 years.

2007-2009 NSF. Survey system for coastal and estuarine waterways. \$165,000 for 2 years. Co-PI.

2008-2011 NSF. Acquisition of controlled environmental spaces for Skidaway Institute of Oceanography. \$145,500 for 2 years. Co-PI.

2008-2009 NSF. Shipboard Scientific Support Equipment. \$75,000 for 1 year. PI.

2008-2009 NSF. Oceanographic Instrumentation for the R/V Savannah. \$45,000 for 1 year. PI.

2008-2011 NSF. Coastal Geoscience and Engineering: Development of a joint degree program between Georgia Institute of Technology-Savannah and Skidaway Institute of Oceanography. \$150,000 for 2 years. PI.

2009-2012 NSF. Oceanographic Technical Services for the R/V Savannah. \$194,660 for 3 years. PI.

2009-2011 NSF. Oceanographic Instrumentation. \$45,000 for 1 year. Co-PI.

2009-2013 NSF. Shipboard Scientific Support Equipment. \$210,000 for 3 years. PI.

2010-2012 NSF. Shipboard Scientific Support Equipment. \$35,103 for 2 years. Co-PI.

2011-2012 NSF. Oceanographic Instrumentation. \$31,391 for 1 year. Co-PI.

2011-2014 NSF. WORKSHOP: Positioning Field Stations and Marine Laboratories for Emerging Initiatives in Scientific Research and Training. \$188,550 for 3 years. Co-PI.

2011- NOAA. Support for NMFS fisheries sampling activities on the Southeast US continental shelf. Estimated \$2,000,000 for 5 years. PI.

2012-2014 NSF. FSML: Acquisition of a next generation high throughput DNA sequencer (Ion Torrent) or the Skidaway Institute of Oceanography. \$118,690. Co-PI.

2012-2014 NSF. Shipboard Scientific Support Equipment. \$66,229 for 2 years. Co-PI.

2012- NSF. Oceanographic Technical Services. Estimated \$500,000 for 5 years. Co-PI.

2012- NSF. Ship Operations, R/V Savannah. Estimated \$3,500,000 for 5 years. Co-PI.

2015- NSF. Oceanographic Instrumentation. \$66,781 for 2 years. Co-PI.

2015- NSF. Shipboard Scientific Support Equipment. \$421,236 for 2 years. Co-PI.

2016- NSF. FSML: Acquisition of instrumentation at the Skidaway Institute of Oceanography to establish a Laboratory for Imaging Microbial Ecology (LIME). \$231,055 for 2 years. Co-PI.
